

***Punkin: Daughter of the Light Healers***

September 1, 2014. Fiction

Genre: Spiritual, New Age. ISBN 978-1502370976. \$9.95

***Punkin*** was sent to Earth to save humanity from the destruction of Darkness; and to save the Vortex of the globe-planet. Punkin is overwhelmed with this task and just wishes to go back home.

She soon discovers a special bag of tools and is told she has access to all the powers of the Gods and Goddesses, which she has to determine how and when to use them. As her journey begins she meets several Mystical beings who have been sent to help.

Was she able to save humanity from the destruction of Darkness? Was she able to save the Vortex to once again stabilize growth, propagate precious lights and to continue with Mother Nature at the helm? Or did she return home unsuccessful?

The answers to these unique questions and more will be revealed in this magical-mystical book.

The story ***Punkin: Daughter of the Light Healers*** is a fictional story with an important non-fiction message for Humanity.
